Vista Analytical Laboratory
1104 Winfield Way
El Dorado Hills, CA 95762

Laboratory ID: 9932
Effective Date: 02/08/2020

Dear Ms. Maier:

SUBJECT: Reciprocal Certification

The information supplied to this office originating from the State of California, the State of Oregon, and your laboratory has been reviewed. Based on the California and Oregon certification of Vista Analytical Laboratory, the Michigan Department of Environment, Great Lakes, and Energy (EGLE) will accept the results generated by your facility for compliance monitoring under the Safe Drinking Water Act, 1976 PA 399, as amended. The results that will be accepted are for the following contaminants and certification levels:

Organic Chemistry
Certified Parameters:

2,3,7,8-TCDD (Dioxin) (via U.S. EPA Method 1613B)

Our acceptance of results and certification of Vista Analytical Laboratory is contingent on your continued certification by the State of California and the State of Oregon. Additionally, your certification is contingent on the submission of acceptable proficiency test sample results from a state approved supplier on a running 12-month basis throughout the certification period and the results of any on-site inspections conducted by the State of California or the State of Oregon or their agents. Our certification of your facility will expire on February 7, 2021. Forward any new certificates and on-site inspection report(s) once you renew your certification in State of California (Home State) or the State of Oregon (Primary NELAP Accreditation Body). Provided you maintain fully certified status in California and Oregon you will be reissued reciprocal certification for the State of Michigan.

Ms. Martha Maier
