Martha Maier
Vista Analytical Laboratory
1104 Windfield Way
El Dorado Hills, CA 95762

Dear Martha Maier,

Thank you for applying for drinking water testing certification with the State of Vermont. Please find your laboratory's Drinking Water Laboratory Certification listing and Vermont Certificate enclosed with this letter. Please **review** these documents for accuracy and inform us of any possible discrepancies. The listing will be valid until the date on the Analytical Methods attachments [unless your primary accrediting body changes your accreditation status].

The Laboratory shall send updated certificates from its primary accrediting body(ies) within 10 business days of receipt to the Vermont Department of Health.

The granting of certification status is directly related to successful proficiency performance, corrective action, fully implemented quality assurance plan, audits and receipt of fees. The Certification Officer will review these areas prior to granting of certification status. Certification status may change during the calendar year.

If you have any questions, please call or write to me directly.

Sincerely,

A handwritten signature in blue ink that reads "Ali Boren".

Ali Boren
Certification Officer

Ali Boren

Certification Officer

Date signed June 25, 2020

As of July 9, 2020, this list supersedes all previous lists for this certificate number. Vermont certification is based in part upon current Oregon Certificate of Approval Number 4042-014, February 8, 2020 through February 7, 2021. Laboratories are certified in Vermont based, in part, upon its Primary Accreditation Body(ies) drinking water accreditation(s). Also, loss of drinking water primary accreditation (in part or whole) constitutes loss of certification in Vermont for the same drinking water tests.
